## INTELLIGENT VOICE DISCLAIMER

© 2018 Intelligent Voice. All rights reserved.

Intelligent Voice believes the information in this publication is accurate as of its publication date. The information is subject to change without notice. The information in this publication is provided “as is”. Intelligent Voice makes no representation or warranties of any kind with respect to the information in this publication and specifically disclaims implied warranties of merchantability or fitness for a particular purpose. Using, copying, and distribution of any Intelligent Voice software described in this publication requires an applicable software license.

THE INFORMATION CONTAINED IN THIS DOCUMENT IS THE PROPRIETARY AND CONFIDENTIAL INFORMATION OF INTELLIGENT VOICE LIMITED. YOU MAY NOT DISCLOSE, PROVIDE OR MAKE AVAILABLE THIS DOCUMENT, OR ANY INFORMATION CONTAINED IN THIS DOCUMENT, TO ANY THIRD PARTY, WITHOUT THE PRIOR WRITTEN CONSENT OF INTELLIGENT VOICE LIMITED.

The information in this document is provided for use with Intelligent Voice products. No licence, express or implied, to any intellectual property associated with this document or such products is granted by this document.

All Intelligent Voice products described in this document are owned by Intelligent Voice Limited (or those companies that have licensed technology to Intelligent Voice) and are protected by patents, trade secrets, copyrights or other industrial property rights.

The Intelligent Voice products described in this document may still be in development. The final form of each product and release date thereof is at the sole and absolute discretion of Intelligent Voice. Your purchase, license and/or use of Intelligent Voice products shall be subject to Intelligent Voice’s then current sales terms and conditions.

## New Features in 4.1

---

### [New Delete Item Endpoints \(by Item ID and by Retention Period\)](#)

An endpoint that allow users to delete processed items from the system.

### [New endpoint returning the list of Item Types \(vox\)](#)

An endpoint to return the type of Items the system can process.

### [ASR CPU/GPU running together on the same machine](#)

Now it's possible to have more processing power thanks to ASR Workers GPU and CPU running on the same machine at the same time

### [IVNote Recipients](#)

Now it's possible to specify IVNote Recipients when Creating an Item

### [.msg and .docx files now accepted](#)

It's possible now to import .msg and .docx files into the system

## Bug fixes

---

[INT-2294/INT-2429] Hypertree navigation buttons display incorrect tags

[INT-2472] Create New Item throwing NullPointerException in case of Audio Import

[INT-1275] Watchwords links fixed into email body

## Improvements

---

### Optional Transcript into IVNote Email

It's now possible to decide to print the Transcript in the body of IVNote emails per import and per user.

## Known Issues

---

The following known issues are expected to be addressed in a future release:

### Automatic Topics

[INT-2411] Topics can be created without matching a location in the item

[EB-30] Automatic Topics are only available in English, Spanish and Portuguese

### Intelligent Voice API

[INT-2059] getGroupDetails method is slow with a large number of items in a group

### JumpTo web application

[INT-1982] Large imports and exports cause JumpTo to time out and show an generic error message. The operation is processed correctly despite the message.

[INT-2272] Phonetic search pagination not working

[INT-2274] The People map is incorrectly reporting the number of items per person

[INT-2396] First group has to be created via API - create new group in JumpTo does not work if there are no existing groups

[INT-2409] audit report is not shown when there are no entries (i.e. for newly created users)

[INT-2194] import page does not refresh to show status of import
